

# Abstracts

Friday, 14 November

Abstract	First Author	Presentation	Authors Present
High Ultrafiltration Rates Are Associated with Poor Outcomes in HD Patients: Results from the DOPPS I	Saran	Poster F-PO787	10:00-12:00 Exhibit Halls A-C
Multivitamin Use Varies among HD Patients across Countries and is Associated with Reduced Mortality: Results from the DOPPS I	Burdick	Poster F-PO875	10:00-12:00 Exhibit Halls A-C
Patient Withdrawal and DNR Status among HD Patients: Results from the DOPPS I	Burdick	Poster F-PO879	10:00-12:00 Exhibit Halls A-C
Aspirin Use and Outcomes in HD Patients: Results from the DOPPS I	Ethier	Poster F-PO882	10:00-12:00 Exhibit Halls A-C
Insurance Status and Patient Out-of-Pocket Costs for Medications and Dialysis Treatments: Results from the DOPPS II	Young	Poster F-PO885	10:00-12:00 Exhibit Halls A-C
Patient Characteristics Associated with Hemoglobin Concentrations: Results from the DOPPS II	Pisoni	Poster F-PO923	10:00-12:00 Exhibit Halls A-C
Erythropoietin Therapy and Associated HD Patient Characteristics: Results from the DOPPS II	Pisoni	Poster F-PO929	10:00-12:00 Exhibit Halls A-C
Yearly Trends in Anemia Management in the American Arm of the DOPPS I	Robinson	Poster F-PO931	10:00-12:00 Exhibit Halls A-C
Achievement of Proposed NKF-K/DOQI Bone Metabolism and Disease Guidelines: Results from the DOPPS I	Kim	Poster F-PO942	10:00-12:00 Exhibit Halls A-C

Saturday, 15 November

Abstract	First Author	Presentation	Authors Present
Predictors and Outcomes Associated with Atrial Fibrillation among HD Patients: Results from the DOPPS I	Wizemann	Poster SA-PO888	10:00-12:00 Exhibit Halls A-C
Predictors and Outcomes in HD Patients with Peripheral Vascular Disease: Results from the DOPPS I	Saran	Poster SA-PO889	10:00-12:00 Exhibit Halls A-C
Patients Receiving Hemodiafiltration or Hemofiltration Have Lower Mortality Risk Than Patients Receiving Hemodialysis without Replacement Fluid (HD) in Europe: Results from the DOPPS I	Canaud	Free Communication SA-FC140	4:00 Room 29

Sunday, 16 November

Abstract	First Author	Presentation	Authors Present
Kidney Transplant Waitlisting: DOPPS II Results from Australia, New Zealand, Canada, Europe, Japan, and the US	Pisoni	Poster SU-PO588	1:00 - 3:00 Exhibit Halls A-C
Prevalence and Predictors of Depression among HD Patients in the DOPPS II	Young	Poster SU-PO799	1:00 - 3:00 Exhibit Halls A-C

## Plenary Session

Sunday, 16 November 10:00 - 11:00 am

### “Practice Patterns and Outcomes for Hemodialysis Patients: New International Results from the DOPPS”

Chairmen: Dr. Friedrich Port, USA and Dr. Luis Piera, Spain

- **Mineral metabolism: practices, guidelines, and outcomes** (Dr. Peter Kerr, Australia)
- **Cardiac drugs: practices and outcomes** (Dr. Vittorio Andreucci, Italy)
- **Lipid lowering drugs: practices and outcomes** (Dr. Tadao Akizawa, Japan)
- **Vascular access: practices, guidelines, and outcomes** (Dr. Roger Greenwood, UK)
- **Health-related quality of life and outcomes** (Dr. Donna Mapes, USA)
- **Discussion**

## ASN Evening Symposium

Sunday, 16 November 6:15 pm

### “Morbidity and Mortality Across the CKD Continuum: Can a Renewed Focus on Anemia Improve Outcomes?”

6:20 - 6:40 pm **International Comparisons of Practices and Outcomes: DOPPS Evaluation of Differences** (Dr. Ronald Pisoni, USA)
